  - Licences & Invoices
  - Calendar
  - IBSA Online Entry System**
  - Reports & Downloads
  - Account Manager
  - IPC Database Issue Tracker

to ISAS !

modules menu at the upper left corner application and select the IBSA Online Entry System. Your access is granted to following modules:

entities of the application: (1) The so-called "Common Codes" define the global classes, federations and countries. IBSA membership can managed in here. (2) Athletes around the IBSA licensing programme. (3) Last, but not least, the application sends messages that appear on the ISAS login page to inform your community.

**Athletes** is the core module of ISAS. Here you may view, register, update, delete athletes and competition partners in all your sports for your federation. The registration section is extended by a duplicate search tool to check for data redundancy. The most important section is the classification area in which you may view and update the entire classification history of each single athlete including storing classification relevant and sport-specific information and upload/download classification files.

The **Licences & Invoices** module primarily handles the IBSA licensing programme. Countries may purchase licence packages that they later use, upon IBSA's confirmation that the related invoice has been paid, to finally license their athletes for a particular season. IBSA controls here the registered athletes whether they are eligible to obtain a license, and reviews licence as well as participation fee invoices generated in the online entry system module.

The **Calendar** module allows the registration of IBSA competitions and/or events relevant for your community. Registered competitions can then be synchronised with the IBSA website online calendar. Furthermore, the events programme can be predefined to simplify the preparation of the IBSA online entry system.

The **IBSA Online Entries** is an extension of ISAS based on the athletes, licence, and calendar modules. Competitions from the calendar can be configured to run the entries by number and entries by name processes necessary to let the countries nominate their teams for an upcoming event. The entry system is further used for bipartite/wild card applications as well as participation fee invoice generation. Finally, both the countries as well as IBSA can download reports in various formats to review the entries and transfer the data to the local organising committee to start the events.

**Reports & Downloads** support you in the massive review of your athletes data. Main feature of this module is the flexible design of a classification master list ("CLM") that reflects the current classification of some or all athletes by sport, as PDF or Excel file for further analysis. Additionally, classification documents can be massively downloaded for a selected list of athletes (e.g. those assigned or inscribed as participants to an upcoming event). Reports with focus on the licensing programme complete the report section.

## IBSA JUDO WORLD CUP > Judo

### Entries by Number of Turkey

Form

#### General Information

Before you can access the entries by name phase, please fill out the form below to indicate the number of athletes by gender as well as the remaining team delegation size. A summary of your data can be found in the team delegation report section.

#### Entry Numbers for Judo

Expected number of male athletes, female athletes, competition partners (if applicable) and remaining staff from your country. Please keep in mind that an increase of the numbers is not possible after entry by number has been finally submitted; for exceptional regulations, please consult the qualification criteria document for the competition.

Male Athletes

Female Athletes

Number of Staff  e.g. team leader, coaches, physio ...

Delegation Size  auto calculate Daily Wheelchair Users

#### Entry Numbers by Event for Judo

Please fill in the number of participating athletes by gender and event (individual events) or indicate the participation of a team by ticking the related box. The '>' ('<') character indicates that the class is eligible for this class but only in the next higher (lower) class. If a specific class is indicated, please enter the number of participating athletes under that class.
